Student Night

Scholarships will be given to deserving students

**SOUTHWESTERN OHIO
CHAPTER
AMERICAN FOUNDRY SOCIETY**

MEETING ANNOUNCEMENT

Date: Monday March 12, 2007

Location:

American Testing Services

2268 North Moraine Drive

Dayton, Ohio 45439

**Topic: ADVANCES IN DIGITAL X-RAY
AND PLANT TOUR**

**Speakers: CHRIS SMALL; PRESIDENT
AMERICAN TESTING SERVICES**

Digital Xray

In the new "digital age" it was expected that older ways of doing things will change. Xray have used film since their development in the 1800's. Chris will discuss and later show us his latest acquisition, digital x-ray equipment. X rays can now be taken without film and recorded on digital media, hard drives, cd's or jump drives or even emailed. This increases productivity dramatically. However digital standards must be developed to relate to the old standards. Chris Small the President and founder of American Testing Services has all the answers.

Directions

We're off Interstate 75, either Dryden Road Exit #50, then north 1/2 mile and left to: 2268 North Moraine Drive in Dayton
